PROFILE

Highly motivated and detail-oriented web developer with expertise in front-end and back-end development. Proficient in HTML, CSS, JavaScript, React, Node.js, and MySQL. Strong problem-solving skills, with excellent communication and teamwork abilities. Passionate about delivering high-quality, user-friendly web applications.

PROJECTS

Spotify Clone

- A music streaming web application built to mimic the features of Spotify. Users can browse through a library of songs, create and manage playlists, and play music directly on the platform.

Zoo visit website

- A website designed for a local zoo, providing visitors with information on animal exhibits, showtimes, and ticket prices. The site also features a interactive map of the zoo.

Amazon front-end clone

- Built a responsive Amazon frontend clone using HTML and CSS, replicating the original UI/UX design and ensuring cross-browser compatibility.
